Daily Republican.

OFFICIAL PAPER OF SEYMOUR.

JAY C. SMITH, } Editors and Publishers.
EDW. A. KEMM, }

THURSDAY, APRIL 14, 1898.

CITY REPUBLICAN TICKET

For Mayor,
A. W. MILLS.
For Marshal,
ABE THICKSTON.
For Clerk,
JOSEPH E. McKINNEY.
For Treasurer,
THOMAS J. CLARK.
For Judge,
A. H. HOOVER.
For Councilman First Ward,
JOHN A. GOODALE.
For Councilman Second Ward,
J. B. SHEPARD.
For Councilman Third Ward,
JAMES DEGOLYER.
For Councilman Fourth Ward,
J. W. BERGDOLL.
For Councilman Fifth Ward,
FRANK BRETHAUER.

The people are especially anxious to know the war news now from day to day. The REPUBLICAN is furnishing to its readers the latest bulletins each afternoon. This is done at considerable expense, yet such enterprise is always appreciated and reciprocated.

CHARLEY BURKART is disposed to say harsh things about the democrat who so forgot his promise to secrecy as to go out and tell about that secret meeting at the News office two nights before the election. Charley was one of the prominent factors in the meeting, yet he didn't want to be found out. He thought he and Arbuckle especially were to have been protected, and that none of the candidates, whose defeat was arranged in that meeting were ever to know a thing about it. Too bad that the scheme of Charley and Tom and the bosses was betrayed. It is said that Charley even swore about it and that Tom said "dern."

POLITICAL BREVITIES.

Our evening contemporary and Arbuckle's organ have certainly overlooked Frank Groff, their candidate for marshal. Why not give at least a brief review of his career along with that given other candidates?

The local democratic campaign bosses have to admit that the city finances have been managed during the last four years with great wisdom and would like to claim credit for the same. If they desired the people to give them credit, they should have been a little active along that line when they were in power.

Our evening contemporary is getting "gay." Its efforts are "cute," but who does it represent? Arbuckle, Pettig, Huber or Burkart? No. It isn't in the confidence of the first named statesman and the latter two haven't even had a complimentary mention yet. Perhaps it is authorized to speak for Groff. We are listening.

Charley Burkart wants to draw a stipend from the city treasury as councilman. His paper would be glad to do the city printing and Charley is willing to that. His paper would also publish the fulminations, and proclamations and hallucinations of the mayor if Arbuckle were elected. Then where does the Democrat come in?

Oh, How Strange!

Just as the word was going round that the Democrat was sulking, sour and sore, so it suddenly became the most enthusiastic champion of the failing cause! Its ardor is very flimsy and suspicious—it "does protest too much."

The Democrat finds fault because republican councilmen insist on the B. & O. S. W. railroad paying its part for the brick streets. Is it the policy of the Arbuckle ticket to relieve the railroads from paying for improvements and to pay their proportion out of the city treasury? Would such be justice to the people?

PATRIOTIC THOUGHTS.

Extract of Memorial Address of Attorney John M. Lewis, Jr., Before the Union Veteran Legion.

Below is a brief extract of the able address of Hon. John M. Lewis, delivered before the Union Veterans' Legion the publication of which we have been compelled to delay two or three days on account of the extra amount of work in the composing room. The spirit of patriotism is aroused throughout the country so that these patriotic thoughts are especially timely and will be eagerly read. Mr. Lewis said in part:

"I assure you that I appreciate the honor your committee conferred upon me by its invitation to deliver an address at this time and while I accepted it a little reluctantly I did it simply because I felt my inability to fulfill the requirements of the occasion. However I deem it my duty as an American citizen, one enjoying the blessings and liberty of a great and free country to respond whenever I am called upon by the boys who wore the blue.

There is a crime against God and home and native land; a crime which the warrant of the officers can not reach; which the judge upon his bench can not punish, which no civil or penal code of man prohibits, but it is a crime nevertheless, as black as any that ever stained a criminal record, and that is the crime of being false to ourselves and to the purposes for which we were created.

God has endowed man with eyes to see the beauty that buds and blossoms around him, with a voice to be raised against the wrong, with arms to be raised in behalf of the right and with a heart to melt in charity for the weak and oppressed wherever they may be found. And that man whose eyes are so blinded by self interest; whose arm is too cowardly to strike for the truth; whose voice is too weak to be heard for justice, is a libel in the name of man and a criminal in the sight of God. No body of men ever lived and squared their feelings and actions closer to their God-given duty, than did the boys who wore the blue."

Mr. Lewis discussed the causes of the war and said "that the southern army was a growth of all the false ideas that were planted in the human heart when the first slave was landed on our shores. The northern army was the growth through all the generations since the human voice first plead for liberty. It was only a Dutch trading vessel carrying a load of slaves and a cotton seed dropped into the earth that made a cotton king that cankered this nation's life, and to uncrown that king, ruling from a throne built on a base love of gold, our nation gave in dead and wounded and maimed, a million sons of her best blood."

"If there is one lesson to be learned from the battlefields of the great rebellion it is this,—a question is never settled until it is settled right. If Gettysburg and Shiloh have one mission it is to teach us to be men; and when we fail to do our duty in the present we are traitors to those fields of glory. I believe the best way to educate a boy, at least the best way to make a man out of him, is to send him to the public schools; hang the American flag above his head; give him an American history and say to him: 'Heroes wrote Bull Run, Gettysburg, Shiloh and Appomattox upon those pages and if you don't throw your influence upon the side of good government, if you willingly allow any man to assail that flag, you are a coward in the midst of duty and a traitor to your God and country.'

Mr. Lewis said: "The great question now is not what have the soldiers done, but what are we, who never unsheathed a sword, who never marched to the martial music of Union, what are we doing to maintain, perpetuate and keep un sullied that glorious heritage born in the revolution of '76 and christened in the rebellion of '61. Into our care is being entrusted the flag they loved and defended so well. God grant that we may never be called upon to uphold it on fields of blood where the moans of

the wounded and dying sound like funeral dirges. O God! No more! Let it forever be the lovely messenger of peace."

The speaker referred to the probability of a war with Spain and said, "That if war must come, to uphold the right, then I know the past will be forgotten and from northern homes and from southern firesides a mighty and invincible host, wearing the panoply of America will rally around that banner, emblematic of our hope and love for God and unity.

"Tonight in the presence of our illustrious heroes let us reconsecrate ourselves to America. Our great mission is to build still higher our glorious republic. Let us feel that to some great cause we should each be allied, held to scatter the roses of truth along the great highway of God. Let us live forever in brave words and patriotic action. Let us stand for true liberty not unbridled licenses. Let us stand for free and honest government! for the great cause of public education and for progress, the eternal basis of which is truth. THE DREADED CONSUMPTION

T. A. Slocum, M. C., the Great Chemist and Scientist Will send Free, to the Afflicted, Three B. bottles of His Newly Discovered Remedies to Cure Consumption and All Lung Troubles.

Nothing could be fairer, more philanthropic or carry more joy to the afflicted, than the offer of T. A. Slocum, M. C., of 183 Pearl St., New York City.

Confident that he has discovered an absolute cure for consumption and all pulmonary complaints, and to make his great merit known, he will send, free, three bottles of medicine, to any reader of the SEYMOUR REPUBLICAN who is suffering from chest, bronchial, throat and lung troubles or consumption.

Already this "new scientific course of medicine" has permanently cured thousands of apparently hopeless cases.

The Doctor considers it his religious duty—a duty which he owes to humanity—to donate his infallible cure.

Offered freely, is enough to commend it, and more so is the perfect confidence of the great chemist making the proposition.

He has proved the dreaded consumption to be a curable disease beyond any doubt.

There will be no mistake in sending—the mistake will be in overlooking the generous invitation. He has on file in his American and European laboratories testimonials of experience from those cured, in all parts of the world.

Don't delay until it is too late. Address T. A. Slocum, M. C., 183 Pearl Street, New York, and when writing the Doctor, please give express and post-office address, and mention reading this article in the SEYMOUR REPUBLICAN.

LUTHERAN MEETING

Over Four Hundred Delegates Attending the Synod.

WAS ARRESTED ON SUSPICION

Governor Mount Names the Men Who Will Represent the State at the Omaha Exposition—\$10,000 Blaze at Kingsbury—Meeting of Presbyterian Church People.

Indianapolis, April 14.—Over 400 delegates are present at the Lutheran synod being held in St. Paul's German Lutheran church in this city. They represent the three states of the district—Indiana, Ohio and Kentucky. The conference will be in session for six days, ending next Tuesday evening. This promises to eclipse all former meetings. MOTHER! There is no word so full of meaning and about which such tender and holy recollections cluster as that of "MOTHER"—she who watched over our helpless infancy and guided our first tottering step. Yet the life of every Expectant Mother is beset with danger and all effort should be made to avoid it.

Mother's Friend so assists nature in the change taking place that the Expectant Mother is enabled to look forward without dread, suffering or gloomy forebodings, to the hour when she experiences the joy of Motherhood. Its use insures safety to the lives of both Mother and Child, and she is found stronger after than before confinement—in short, it "makes Childbirth natural and easy," as so many have said. Don't be persuaded to use anything but

A REDUCTION ALL ALONG THE LINE.

The success that we have met with by reducing the price of our cabinet photographs to one dollar per dozen, has determined us to continue for thirty or sixty days longer, making cabinets on glossy paper equal in style, finish and durability to those made by other photographers at a much higher price.

We have also determined to make the platinum or dead finish cabinet photos (by some called carbonettes) at \$2.00 to \$2.50 per dozen and guaranteed them to be equal to any made in Seymour at \$3.50 to \$4.00 per dozen.

Don't be deceived by the cry of cheap materials and work, for we will use the same kind of printing paper, and tone in the same kind of gold and artist platinum baths. Wash our prints in the same kind of water and card and burnish them in the same way.

We desire to call attention to our new velvet gloss cabinets at \$1.50 per dozen that by many are preferred to the higher priced platinum. We invite you to call and examine our work and then if you desire to pay higher prices for no better work, it is your privilege to do so.

THE VERGE OF WAR

THE U. S. AND SPAIN BOTH READY TO FIGHT.

The House and Senate Taking Such Actions as Will Most Certainly Precipitate a Conflict.

Special dispatch to the REPUBLICAN.

WASHINGTON, April 14. (3 p. m.)—A half dozen senators are making strenuous efforts to block immediate action on the resolutions of the foreign relations committee. The senators generally anxious for early action on the Cuban resolution and are determined to hold continuous sessions if there is a disposition to delay action by debate.

Secretary Long issued his first war order today, which was to the effect that the bureau of navigation shall give out no information touching movements of vessels.

The President is waiting to learn what effect the action of congress will have on Spain. He would not be surprised to hear that Spain had declared war on the strength of the house resolution and the report of the senate committee on foreign relations.

The President expressed a desire that both houses agree on the resolutions passed by the house yesterday.

The resolutions of the senate are more radical than those of the house but the enactment of either will bring war.

The demand upon Spain to withdraw military and naval forces from Cuba will be construed as a declaration of war, since the demand is accompanied with a direction to the commander-in-chief of the U. S. military forces to drive them out unless they voluntarily withdraw.

Spain Will Fight.

LONDON, April 14.—A special from Madrid states that a prominent Spanish cabinet minister declares in an interview, "Should McKinley notify Spain to evacuate Cuba, the government will immediately and emphatically refuse and are fully prepared to take the consequences."

The Klondike Party.

Miss Frances Stunkel entertained a number of her friends last evening in honor of Miss Myrtle Baker, who went this morning to Terre Haute to attend normal. The entertainment was delightful. The prevailing color throughout the evening was yellow, or old gold, and the flower, dandelions. It consisted of recitations and readings from "Gold Nuggets," enlivened by vocal duets and solos. The most interesting feature was the gold digging prizes were awarded to those finding the greatest, and also the least number of gold nuggets, which were concealed about the room. The booty prize, which was a bar of soap, molded in the form of the popular "yellow kid," fell to Miss Pearl Baker, who was successful in finding not one nugget. Yellow refreshments were served and the company highly pleased with the evening's entertainment adjourned.

Miss Frances is a model young lady and deserves the praise of the "I. O. M. A."

FRENCH JOURNALS.

Shares of Several Bought and Sold Daily on the Stock Exchange.

Most of the French journals have a *salle de depêches*, where bulletins are displayed and a museum of relics of the paper is kept. French journalism is much more personal in regard to its literary composition than that of England or America. A large proportion of the articles are signed with the names of the writers, even when the work is more or less of a routine nature, such as the sporting or law departments of the paper. On the other hand, the ownership of newspapers is less frequently lodged in single hands than is the case in America. Very many of the French papers are owned by companies or associations, while the stock of several of the best known, such as *The Figaro* and *Petit Journal*, is bought and sold daily on the Stock Exchange, the quotations appearing as regularly as those of railway shares or Government bonds.

The circulation of all but a very few of the Paris papers varies enormously, according to the contents. If a paper contains a striking article, well advertised previously, or if its feuilleton, continued story or memoirs, which most of the French journals consider an essential part of their daily issue, is by some well known author, the circulation will run up 50,000 or 100,000 in a week and drop again as soon as the special feature is discontinued. When *Le Jour* began publishing M. Henri Rochefort's memoirs, its circulation went up fivefold, although the price of the paper had been doubled in order to make hay while the sun shone.

The French press is much more concentrated in the capital than that of other European countries. In Germany, for instance, it is not the press of Berlin that has the largest circulation or the greatest influence. In this, as in many other matters, however, the French press only bears out the saying that "Paris is France."—Chautauquan.

NEW PUNCTUATION MARK.

A Badly Needed Invention Suggested by the Caustic Copy Reader.

"I shall be famous. I have an idea that will send my name thundering down through the ages," remarked the copy reader.

"Humph!" replied the humorist. "It will be the first idea you have ever had. You spend most of your time destroying the good ideas of others."

"Well, that may be, although you never have any idea to destroy, seeing that you get those which you have from Joe Miller's jokebook and the old almanacs."

"Oh, well, let's have your idea!" "To tell the truth, it was suggested to me by you."

"Ah! I thought as much, and yet you say—"

"Don't be in too big a hurry. You haven't heard my idea."

"What is it?"

"I have invented a punctuation mark for humor. It is intended to show the reader where to laugh. In olden times, you know, the point of the joke used to be printed in italics. Nowadays there is no way to show the point, and, as many of the jokes, such as yours, have no point, it is impossible to print the point in italics. Now, I suggest that a punctuation mark be placed at the beginning and at the end of everything supposed to be funny, so that the reader may be prepared to laugh when he begins to read and know when he has reached the point and it is time to laugh. I would suggest that the mark be two little squares placed above the line, and I shall call it by my name. What do you think of that for an idea? It was suggested by your stuff, as I told you."

But the humorist had given the copy reader a look of scorn and had vanished.—Chicago Times Herald.

THE LITTLE TITMOUSE.

One Free Bird That Attracts Attention Among Hundreds of Captives.

In a big bird store where there are hundreds of birds of many kinds incessantly squawking, chirping and singing there is one that is free—a tiny titmouse. The window is full of cages containing birds of various sorts, and one side of the store is lined with bird-cages stacked up high all along. But there is none that attracts so much attention as the little titmouse flitting about the store at will. At night it perches on a gas fixture in the window, and to that it comes back from its various excursions by day.

Customers that come in to buy birds and birdcages and bird seed and one thing and another never fail to notice the titmouse. They may not notice another bird there individually, but their attention is sure to be attracted by this one as it darts about, free among so many captives, and they are likely to smile at it, they are so pleased with it. And sometimes children, looking in at the windows of the bird store, come in to tell the clerk that one of the birds has got loose.

When it has nothing else to do, the titmouse sits on its gas pipe perch and perks its head this way and that and looks about. Sometimes it whets its beak on the gas pipe. Every now and then it dashes off somewhere. If it wants a drink, it perches on the rim of a goldfish globe—for home aquariums and stock for them are sold here as well as birds—no doubt to the great surprise of the goldfishes and certainly to that of the human beholders, who wonder that it doesn't fall in, it has to bend over so far to reach the water. But it gets it, and when it has taken its fill it flashes back to its perch on the pipe in the window.

The titmouse catches spiders and other insects, and it feeds in the larger cages when it will. It goes in and out of them between the bars with perfect ease. It is a very little bird, even with its plumage in its natural form. With its feathers pressed against its sides it can get through a very narrow space—between the bars of a parrot's cage, for example—with ease. There are in the window a number of parrots' cages in a row. The titmouse almost flies through these cages, stopping in each perhaps to eat of the parrots' food, but they never molest it. Parrots that would bite at the finger of a man who should put his hand near enough to the outside of their cage stand back in fright or sheer amazement when the little titmouse dashes in and perches on their feed cup.—New York Sun.

A Famous Old Lady.

In a beautiful house in Brussels there lives an old lady, Mme. Henrietta Ronner, whose work has won her fame and money. Like Rosa Bonheur, she is an animal painter, but instead of horses and cows her specialty is cats. In the early part of the century her father, Joseph Augustus Knip, was well known in Amsterdam as a flower and landscape painter and educated his daughter in art. Even when his eyesight failed in 1832 he continued to give her instruction by listening to her descriptions of her work. Her destiny was to be that of a portrait painter, but she never liked it and determined to study animals. At the age of 16 she exhibited at Dusseldorf the picture of "A Cat in the Window," which attracted much attention, but the picture which made her reputation was "The Friend of Man," a canvas 6 feet by 8, representing an old man weeping over the death of one of his dogs, which had been used for drawing a cart. The technical skill and the wealth of emotion put into this work were highly praised. Very soon afterward she turned her attention to cats, and she has painted every form and attitude and character and kind of cat and kitten. The usual way that she works is by placing a cat in a glass case made for the purpose with cushions which invite the animal to a natural position. When puss changes her pose, Mme. Ronner puts aside that work and begins another study. Although 75 years of age, Mme. Ronner looks 20 years younger, save for her snowy white hair. She is upright, and her complexion is remarkably fresh. What is most strange is the fact that one never sees a cat at Mme. Ronner's. Whenever she wants to paint one she has a model brought to her.—Chicago Record.

ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other disease.

CHIEF CAUSE.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble of some sort. The error is easily made and may be as easily avoided. To find out correctly, set your urine aside for twenty-four hours; sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp Root, the great kidney and bladder remedy is soon realized. If you need any medicine you should have the best. At druggists fifty cents and one dollar. You may have a sample bottle and pamphlet, both sent free by mail, upon receipt of three cent stamp to cover cost of postage on the bottle. Mention the *REPUBLICAN* and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee its punctuality of this offer.

Everything in Mexico is so radically different from what we find at home that the tourist is perpetually charmed as well as interested. Its civilization runs back to so many centuries and has left so many enduring monuments, its people are so quaint and picturesque, its scenery so bold and rugged, and its cities so novel in their phases of local life, that one never tires of sightseeing in this charming land. The City of Mexico itself, with its great cathedral, its many churches, its byways teeming with busy life and novel industries, its wonderful environs, the holy sepulchers to which the pilgrimages are made, its palaces, is well worth weeks of study, while many lesser cities are centers of peculiar interest. Thus Guanajuato, its catacombs; Zacatecas, the great silver mining center; Guadalajara, the so-called Boston of Mexico and the center of its art life, and Durango, the great iron mining district. There are but a few of the more conspicuous points which the tourist makes stopping places on his journey. Any agent of the Southern Pacific road will take pleasure in giving the inquirer full information, or by writing to W. G. Niemeyer, Gen. Western Agent, Southern Pacific Co., 238 Clark St., Chicago, copies of the new pamphlet on Mexico, entitled "Vamos A Mexico," which the Southern Pacific has just issued, will be sent you if you inclose four cents in stamps.

Suffered 20 Years.

MRS. MARY LEWIS, wife of a prominent farmer, and well known by all old residents near Belmont, N. Y., writes: "For twenty-seven years I had been a constant sufferer from nervous prostration, and paid large sums of money for doctors and advertised remedies without benefit. Three years ago my condition was alarming; the least noise would startle and unnerve me. I was unable to sleep, had a number of sinking spells and slowly grew worse. I began using Dr. Miles' Restorative Nervine and Nerve and Liver Pills. At first the medicine seemed to have no effect, but after taking a few bottles I began to notice a change; I rested better at night, my appetite began to improve and I rapidly grew better, until now I am as nearly restored to health as one of my age may expect. God bless Dr. Miles' Nervine."

HOUSE ACTS

Authorizes the President to Intervene in Cuba at Once.

WITH LAND AND NAVAL FORCE.

Vote on Foreign Committee Resolution Was 322 to 19.

SENATE SAYS SPAIN MUST WITHDRAW FROM THE ISLAND.

Resolutions of Both Houses Demand an Independent Government For the Cubans—The Navy Department Purchases the Liners St. Paul and St. Louis and Sigbee Will Command One of Them. War Department Ready For the Prompt Movement of Troops—In the Event of an Invasion of Cuba One Hundred Thousand Men Will Be Called Into Service.

Washington, April 14.—The house of representatives, after one of the most exciting and memorable days in its history, by a vote of 322 to 19, yesterday adopted a resolution which nine-tenths of its members believe makes war with Spain inevitable. It is a fact which was generally commented upon by members as they spoke of the future, that every war in which the United States has engaged began in April and that yesterday was the anniversary of the fall of Fort Sumpter, which aroused the patriotic fervor of the north and made the four years of civil strife a certainty.

The resolution adopted authorizing the president to intervene is as follows:

Resolved, That the president is hereby authorized and directed to intervene at once to stop the war in Cuba, to the end and with the purpose of securing permanent peace and order there, and establishing by the free action of the people there a stable and independent government of their own in the island of Cuba, and the president is authorized and empowered to use the land and naval forces of the United States to execute the purpose of this resolution.

Although only 19 members, 15 Democrats, three Republicans and one Populist, dissented upon the final vote the proceedings were marred by a bitter and acrimonious display of partisan feeling. Only 40 minutes were given for debate and a special rule was required to get the resolutions before the house.

The minority resolutions, which declared for the recognition of the existing government of the insurgents, were voted down—147 to 190—but they secured the votes of three Republicans. Some stirring and patriotic sentiments were voiced during the debate, which lifted the galleries and the members to a high pitch of enthusiasm. Mr. Adams (Rep., Pa.), acting chairman of the foreign affairs committee, and Mr. Dinsmore (Dem., Ark.), the senior minority member of the committee, were the only members who had an opportunity to speak directly to the resolutions, but General Henderson (Rep., Ia.), Mr. Bailey (Dem., Tex.) and Mr. McMillin (Dem., Tenn.) each made speeches upon the special order.

During the height of the excitement the lie was passed between Mr. Brumm (Rep., Pa.) and Mr. Bartlett (Dem., Ga.) and a disgraceful scene followed that descended to the level of a free fight. Mr. Bartlett hurled a book at his adversary and in a minute half a hundred members were fighting like fends. Order was finally restored and later the two members found that the altercation was the result of a misunderstanding.

A LITTLE LIGHT.

Every young woman needs a little light upon the subject of health. There is far too much unfeeling prudishness among mothers. Every young woman should have explained to her the necessity of keeping herself pure and wholesome and free from weakness and disease in a womanly way. Her general health, her future happiness, her good looks, her physical strength, her capability as a wife and mother, and the health and strength of generations to come are dependent upon this.

Nothing in the world will destroy the good looks, wholesomeness, the amiability, and the usefulness of a woman quicker than disorders of the delicate and important organs that bear the burdens of maternity. Dr. Pierce's Favorite Prescription is the best of all medicines for women who are ailing in this way. It makes a woman strong and healthy where a woman most needs health and strength. It relieves pain, soothes inflammation, heals ulceration and gives rest and tone to the tortured nerves. It cures all the ills and pains too commonly considered an uncomfortable inheritance of womanhood. It has been used for over thirty years with an unbroken record of success. More of it has been sold than of all the other medicines for women combined. It is the discovery of Dr. R. V. Pierce, for thirty years chief consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y. He will cheerfully answer, without charge, all letters from ailing women.

"Three years ago," writes Mrs. J. N. Messer, of 1794 Vanderbilt Avenue, New York, N. Y., "the best physician in this city said there was no cure for me—unless I would go to a hospital and have an operation performed. I could not walk across the room. I took Dr. Pierce's Favorite Prescription and after three bottles I could work, walk and ride."

whereupon there was mutual apologies. Later in the proceedings the speaker was obliged to again call upon the sergeant-at-arms with his silver mace, the emblem of the houses authority, to seat Mr. Johnson of Indiana, who was indignantly remonstrating against what he termed "the unnecessary war into which the country was being plunged."

ACTION DELAYED.

Senate Opposed to Haste in the Cuban Affairs.

Washington, April 14.—War between two powerful nations was the sole topic of discussion in the senate yesterday. Such excitement, suppressed though it was; such a feeling that the country was on the verge of events that would make history for all time to come; such eloquent and impassioned oratory, and such keen and brilliant repartee have not been known in the senate since the exciting days when the country was convulsed by the greatest war of modern times.

Notwithstanding the throng in the galleries, the great semicircular chamber was almost as silent as if it were deserted. Conversation was conducted in low whispers, all seeming to feel as if from the very air they breathed that events historic and momentous were about to occur.

A full quarter of an hour before the senate was to convene Mr. Davis, chairman of the foreign relations committee, entered the chamber and quietly took his seat in the center of the Republican side. He carefully placed on his desk a bulky package which all intuitively knew to be the fateful resolution and report from his committee upon which peace or war might hinge.

The vice president recognized Mr. Davis and in an instant a hush fell over the chamber.

Mr. Davis presented to the senate the resolutions and report from his committee and requested that they be read. The report was a terrific arraignment of Spain and her policies, yet so eager were all to hear every word that not the slightest demonstration occurred throughout the reading.

The resolutions accompanying the report are as follows:

1. That the people of the island are, and of right, ought to be, free and independent.
2. That it is the duty of the United States to demand, and the government of the United States does hereby demand, that the government of Spain at once relinquish its authority and government in the island of Cuba, and withdraw its land and naval forces from Cuba and Cuban waters.
3. That the president of the United States be and hereby is directed and empowered to use the entire land and naval forces of the United States and call into the actual service of the United States the militia of the several states, to such extent as may be necessary to carry these resolutions into effect.

Following the presentation of the report and after Mr. Hoar (Rep.) had insisted that consideration of the resolution go over until today on a point of order, came two of the most remarkable speeches yet delivered on the Cuban question. Mr. Foraker (O.) and Mr. Lodge (Mass.) both brilliant and impassioned orators, presented different phases of the Cuban situation. Mr. Foraker advocated the direct recognition of the independence of the Cuban republic and, with an eloquence and vehemence seldom heard in the senate, splendidly maintained his position. A sharp colloquy between him and Mr. Elkins (Rep., W. Va.) caused excitement.

Mr. Lodge followed with an appeal for action in preservation of the nation's honor and in wiping out the stain of the "atrocious murder" in Havana harbor. His words so reached the heart that the galleries were swept with a tremendous wave of applause.

Mr. Lindsay (Ky.) concluded the discussion for the day with a powerful speech in which he advocated the recognition of the Cubans and a concert of action between the insurgent army and the United States troops in driving the Spanish forces from the island of Cuba.

ST. LOUIS AND ST. PAUL.

Government Purchases Two Ocean Liners—Sigbee May Command One of Them.

Washington, April 14.—A day of stirring activity at the navy and war departments was yesterday. Anticipating decisive action by congress the machinery of the military and naval branches of the government was put in motion and events of grave significance followed in quick succession. In every bureau the work of preparation went on with an enthusiasm and rush that was in marked contrast to the lethargy that had characterized the big granite building since Monday. With it all there was an added secrecy and reticence on the part of officials to discuss the war like movements.

The first event to become known was the acquisition by the navy department of the American line steamships St. Louis and St. Paul and coupled with the announcement came the information that in all probability Captain Sigbee would be placed in command of one and Captain Goodrich of the other.

The naval strategic board called Consul General Lee into the conference yesterday. The session was a long one and was devoted to a thorough discussion of offensive and defensive movements in Cuban waters. General Lee advised to take the most direct line to the coast of Cuba and to take the most direct line to the coast of Cuba and to take the most direct line to the coast of Cuba.

able information regarding the defenses of Havana.

Signs of activity for what now seems to be a probable conflict were continued at the war department. Everything is in readiness for a prompt movement of troops toward some central point, particularly of the forces east of the Rocky mountains, but General Miles says that nothing is likely to be done in the way of moving any large body of troops southward until there is more evidence that their services will be needed.

Complete arrangements have been made for the immediate mobilization of practically the entire military force of the government at the Chickamauga National park at the first signs of trouble. It is expected, in case of necessity, a call will be issued for about 40,000 troops, preferably from the National Guard of the different states and territories. In event that the war policy contemplates the invasion of Cuba, the army may be increased to 100,000 men.

CHICAGO MARKET.

May Wheat Reaches \$1.09 1/2 and July Also Advances.

Chicago, April 14.—May wheat sold at \$1.09 1/2 yesterday, the highest point yet reached for that delivery, while July at one time showed an advance of 2 1/2 cents. The critical state of affairs between the United States and Spain, and enormous sales of cash wheat by Leiter, caused one of the broadest markets seen here in a long time, shorts of all kinds being driven to cover. May closed 1 1/2 cents higher and July 2 1/2 cents higher.

POWDERMILL WIPED OUT.

Twenty Thousand Pounds of Black Powder Explodes.

Sunnyside, Pa., April 14.—The Miller powderworks here and all the buildings connected with the works were simply wiped from the face of the earth by an explosion yesterday and nearly every building in and around Sunnyside was more or less damaged. It is reported that the amount of black powder exploded was 20,000 pounds. No one was injured.

Toledo, O., April 14.—While Mrs. Dr. J. V. Newton and her two daughters were out driving the team became frightened and ran away, upsetting the rig and throwing the three ladies to the pavement. All three were hurt severely, but Mrs. Newton so seriously that her life is despaired of.

Wrestling Match For \$1,000 a Side.

New York, April 14.—Yousuf, the Turk, and Tom Jenkins of Cleveland, were matched yesterday to wrestle, mixed Graco-Roman and catch-as-catch-can styles, best two out of three, for \$1,000 a side at Cleveland on the night of May 4. The ring is to be 22 feet square and to be roped.

SPAIN SHOULD QUIT

Colonel Genaro Alas Favors the Evacuation of Cuba.

CARLOS ISSUES A MANIFESTO.

If the Government Fails to Take Up the Glove Thrown Down by the United States He Will Do It Himself—Interviews With Spanish Ministers—Key West News.

Madrid, April 14.—Upon reassembling of the cortes, Colonel Genaro Alas (retired), lately elected a deputy for Sancti Spiritus, Cuba, will introduce a bill to the effect that Spain should evacuate Cuba, reserving her sovereignty and a yearly royalty, with an arrangement as to the debts. Colonel Alas says that Spain can accept no better solution in aid of peace in the existing circumstances and he thinks the powers could propose no other solution at the stage now reached.

Don Carlos has issued a manifesto, in the course of which he says: "The Carlists who, in the face of war with the United States, would rise in arms against Spain, is a traitor. If war occurs all those who fight against the foreigner who insulted us will deserve well of Carlos. If the Spanish government does not venture on to war, but permits the loss of Cuba, then Carlists who do not respond to the voice of the king will also be traitors. If the government will not take up the glove thrown down by Washington, the king himself will come to Spain, and if he cannot get soldiers, he will get volunteers from the provinces to defend the honor of the country."

Perfect tranquility continues to reign in Madrid. The news from Barcelona and Saragossa is that groups of people are demonstrating in the streets.

MINISTERS INTERVIEWED.

Premier Sagasta and General Correa On the Spanish Situation.

London, April 14.—The Madrid correspondent of The Daily Mail says: "Lieutenant General Correa, minister of war, and Count Xiquena, minister of public works, both told me in a conversation that the government was firmly resolved to repel every attack, direct or indirect on the sovereignty of Spain in Cuba. They said also that they were sure that this line of conduct on the part of Spain would certainly be supported by the European powers, more especially because the negotiations were based on an acknowledgment of Spanish sovereignty in Cuba."

"They told me that the conduct of Spain would be adjusted to that of the United States and that in face of the fact of the continuance of military and naval preparation. Finally the ministers said to me: 'Our resolution at the cabinet council was taken unanimously and we shall maintain it with all the necessary energy.'"

The Spanish premier Sagasta is then quoted as saying that he considers President McKinley's message to be "deplorable," and he is said to have expressed the belief that it was "forced from him by the clamor of congress, which took advantage of his weakness, although President McKinley personally wished to modify it."

Senator Sagasta is reported to have added: "The length of the armistice depends upon how the rebels behave and upon the attitude of the United States. Senator Polo has been instructed to present Secretary Sherman with a further memorandum." In conclusion the Spanish premier is quoted as having announced that he believed congress would grant President McKinley the powers he asked for.

KEY WEST.

Spanish Consuls Leave For the North Mysteriously.

Key West, Fla., April 14.—This city is on the quiver and hungry for news of the next move on the international chessboard. Opinions vary as to the outcome, many people holding the belief that, following the decisive attitude of congress, Spain, realizing she has no alternative but war, will sacrifice all to avoid a resort to arms. The majority, however, consider that Spain has delayed too long to withdraw, and believe a conflict is now inevitable.

There is much speculation here over the departure of the Spanish officials, Consul Rafael Seco and Vice Consul J. M. Fernandez, who, after leaving their effects with Mr. Taylor, the British vice consul, sailed on the steamer Mascotte for the north Tuesday night. Mr. Taylor avers he does not know their destination nor whether they have been recalled.

The long period of uncertainty is undoubtedly having an effect upon the fleet. Signs of weariness and discontent over the delay in taking action in aid of Cuba are apparent. With the case of each day renewed hopes are expressed that the warships will be ordered to Havana; but, when the flags are hauled down at night, the war vessels are still tagging idly at their anchors and the hopeful feeling goes down with the sun.

Everything is in readiness for a quick start and if the order comes for a warlike move the blue jackets of the fleet and their officers will respond with a burst of enthusiasm which can only be appreciated by those who have been spending the weary days of waiting here.

FLYING SQUADRON.

Stripped For Action and Bound For Bermuda.

Virginia Beach, Va., April 14.—(With the Flying Squadron)—Commodore Schley started to move the flying squadron to sea precisely at 2:30 yesterday and by dark would have been many miles from land but for the fact that the Minneapolis fouled her anchor chain and was delayed over two hours in an effort to free it. Finally, when near Cape Henry, the Minneapolis not having joined the squadron, Commodore Schley sent the Columbia back to Fort Monroe to tell the Minneapolis that she could find the rest of the squadron 15 miles east of Cape Henry, where they would wait her arrival.

Beyond this fact none of the officers or men on board the Brooklyn were aware of her destination and Commodore Schley declined to say what her mission was.

The squadron presented a most imposing spectacle when it finally got together. First came the Brooklyn, then the Massachusetts, then the Columbia, then the Minneapolis and finally the battleship Texas holding the left line. The second place of honor. They bowled along at a splendid speed and Commodore Schley said as he looked back on them from the bridge: "There's a good lot of fighters for you. I'd like to see anything that can whip them."

The Brooklyn had 594 men on board when she left Ft. Monroe some having gone ashore ill. The cruise started yesterday is not a practice one and the first stop will be made at Bermuda.

The ships are stripped for action and carry a full supply of provisions and ammunition.

Immediately after their arrival they began coaling and it was said they would sail on the 7th to join the Spanish fleet of torpedo boats on its way westward. In addition to the warships in San Juan harbor there were three small Spanish gunboats which are regularly stationed at Porto Rico.

MOTHER!

There is no word so full of meaning and about which such tender and holy recollections cluster as that of "MOTHER"—she who watched over our helpless infancy and guided our first tottering step. Yet the life of every Expectant Mother is beset with danger and all effort should be made to avoid it.

so assists nature in the change taking place that the Expectant Mother is enabled to look forward without dread, suffering or gloomy forebodings, to the hour when she experiences the joy of Motherhood. Its use insures safety to the lives of both Mother and Child, and she is found stronger after than before confinement—in short, it "makes Childbirth natural and easy," as so many have said. Don't be persuaded to use anything but

MOTHER'S FRIEND

A REDUCTION ALL ALONG THE LINE.

The success that we have met with by reducing the price of our cabinet photographs to one dollar per dozen, has determined us to continue for thirty or sixty days longer, making cabinets on glossy paper equal in style, finish and durability to those made by other photographers at a much higher price.

We have also determined to make the platinum or dead finish cabinet photos (by some called carbonettes) at \$2.00 to \$2.50 per dozen and guaranteed them to be equal to any made in Seymour at \$3.50 to \$4.00 per dozen.

Don't be deceived by the cry of cheap materials and work, for we will use the same kind of printing paper, and tone in the same kind of gold and aristocratic platinum baths. Wash our prints in the same kind of water and card and burnish them in the same way. We desire to call attention to our new velvet gloss cabinets at \$1.50 per dozen that by many are preferred to the higher priced platinum. We invite you to call and examine our work and then if you desire to pay higher prices for no better work, it is your privilege to do so.

THE VERGE OF WAR

THE U. S. AND SPAIN BOTH READY TO FIGHT.

The House and Senate Taking Such Actions as Will Most Certainly Precipitate a Conflict.

Special dispatch to the REPUBLICAN.

WASHINGTON, April 14, (3 p. m.)—A half dozen senators are making strenuous efforts to block immediate action on the resolutions of the foreign relations committee. The senators generally anxious for early action on the Cuban resolution and are determined to hold continuous sessions if there is a disposition to delay action by debate.

Secretary Long issued his first war order today, which was to the effect that the bureau of navigation shall give out no information touching movements of vessels.

The President is waiting to learn what effect the action of congress will have on Spain. He would not be surprised to hear that Spain had declared war on the strength of the house resolution and the report of the senate committee on foreign relations.

The President expressed a desire that both houses agree on the resolutions passed by the house yesterday.

The resolutions of the senate are more radical than those of the house but the enactment of either will bring war.

The demand upon Spain to withdraw military and naval forces from Cuba will be construed as a declaration of war, since the demand is accompanied with a direction to the commander-in-chief of the U. S. military forces to drive them out unless they voluntarily withdraw.

Spain Will Fight.

LONDON, April 14.—A special from Madrid states that a prominent Spanish cabinet minister declares in an interview, "Should McKinley notify Spain to evacuate Cuba, the government will immediately and emphatically refuse and are fully prepared to take the consequences."

A Pleasant Social Event.

The dance given by the Crescita Club Tuesday evening, an account of which was crowded out our columns yesterday, was a very pleasant event. The music for the occasion was furnished by Prof. Johnson's orchestra. At 11 o'clock the guests sat down to an excellent supper prepared by Mr. Pettit.

Reason Dethroned.

Mrs. Kate Harmon, of Pleasant Grove, has been seriously afflicted for some time with infirmity, from the effects of which she has lost her reason. She is highly esteemed and is eighty-two years old.

A Generous Citizen.

The Klondike Party.

Miss Frances Stunkel entertained a number of her friends last evening in honor of Miss Myrtle Baker, who went this morning to Terre Haute to attend normal. The entertainment was delightful. The prevailing color throughout the evening was yellow, or old gold, and the flower, dandelions. It consisted of recitations and readings from "Gold Nuggets," enlivened by vocal duets and solos. The most interesting feature was the gold digging Prizes were awarded to those finding the greatest, and also the least number of gold nuggets, which were concealed about the room. The booty prize which was a bar of soap, molded in the form of the popular "yellow kid," fell to Miss Pearl Baker, who was successful in finding not one nugget. Yellow refreshments were served and the company highly pleased with the evening's entertainment adjourned.

Miss Frances is a model young lady and deserves the praise of the "I. O. M. A."
